

Stereoscopic & Zoom Microscope

"GIPPON-JAPAN" GD-2P Stereo Microscope
with co-axial focussing system and
dual objectives (without illuminators)

GD-2PL, TRINOCULAR STEREO
MICROSCOPE with MICROCOM II
Digital Camera (2 Million Pixel)

"GIPPON-JAPAN" GZM-TR-PL
STEREO ZOOM BINOCULAR MICROSCOPE
(Mag. 1.75x to 270x with additional optics)

"GIPPON-JAPAN" GZM-TR-PL-655
STEREO ZOOM
TRINOCULAR MICROSCOPE

"GIPPON-JAPAN" ADVANCED STEREO MICROSCOPE WITH HORIZONTAL AXIAL DRIVE CONTROLS (MAG 10X TO 40X OPTIONALLY UP TO 120X)

"GIPPON" GD-SERIES STEREO MICROSCOPES ARE TECHNICALLY COMPARABLE TO ADVANCE ZOOM MICROSCOPES IN TERMS OF MAGNIFICATION RANGE, FIELD COVERAGE, WORKING DISTANCE & RESOLUTION.

GD-2P STEREOSCOPIC BINOCULAR MICROSCOPE (Without illuminators) WITH AXIAL COARSE & FINE FOCUSING SYSTEM supplied with Fan Type Plain base & set of two Dual mount objective with HORIZONTAL AXIAL DRIVE CONTROL KNOB 2x or 1x & 3x or 2x & 4x and paired Eyepiece SWH10x. **CODE: GS-7008**

GD-2PL STEREOSCOPIC BINOCULAR MICROSCOPE (DUAL ILLUMINATION) WITH CO-AXIAL COARSE & FINE FOCUSING SYSTEM Supplied with Built in incandescent Illuminator (6V/10W) for white light as well as built in transmitted (Base) CFL illuminator (5W) with variable control. Supplied with a set of Dual mount objective with HORIZONTAL AXIAL DRIVE CONTROL KNOB 1x & 2x or 1x & 3x or 2x & 4x (any one set) and paired Eyepiece SWH 10x. **CODE: GS-7009**

GD-2TPL DIGITAL STEREO TRINOCULAR MICROSCOPE (USB Based) - A high resolution Digital Stereo Trinocular Microscope with outstanding optical performance technical parameters comparable to advance model of Digital Zoom Microscope, economically priced and equipped with high resolution Digital Camera with 3 million pixel resolution (USB based) specially designed for Microscopy. Supplied with GIPPON-JAPAN NAVIGATION SOFTWARE: For sorting, retrieving, E-Mailing images including various functions like zooming and image contrast etc. Supplied with any one set of turret mount objective 1x & 2x or 1x & 3x or 2x & 4x (any one set) and paired Eyepiece: WF10x Magnification range: 10x & 20x or 10x & 30x or 20x & 40x with standard WF10x eyepiece supplied. The Mag. is almost double when the projection is observed on 14" Computer Monitor. **CODE: SD-7010**

"GZM-745 Series" STEREO ZOOM BINOCULAR MICROSCOPE (MAG 1.75X TO 270X)

GZM-PL-745 ZOOM STEREO BINOCULAR MICROSCOPE (Dual Illumination) Supplied with Co-axial coarse and fine focussing system and built in (Base) Transmitted illumination with 6V/10W and 5W CFL lamp with Variable light control for excellent illumination effects, Eye piece (one pair) : SWH-10X (High eye point wide field), objective 0.7x to 4.5x Magnification Range: 7X till 45 X. (without supplementary attachment). **CODE: GZ-7452**

GZM-TR-PL -745 ZOOM STEREO TRINOCULAR MICROSCOPE (Dual illumination) Same as above model GZM-PL-745 but supplied with Trinocular Head. **CODE: GZ-7453**

GZM-PL-655 ZOOM STEREO BINOCULAR MICROSCOPE (Dual Illumination) Supplied with Co-axial coarse and fine focussing system and built in (Base) Transmitted illumination with 6V/10W and 5W CFL lamp with Variable light control for excellent illumination effects, Eye piece (one pair) : SWH-10X (High eye point wide field), objective 0.6x to 5.5 Magnification Range: 6X till 55X. (without supplementary attachment). **CODE: GZ-7555**

GZM-TR-PL -655 ZOOM STEREO TRINOCULAR MICROSCOPE (Dual illumination) Same as above model GZM-PL-655 but supplied with Trinocular Head. **CODE: GZ-7556**
